

This program is geared towards your walking toddler from 18-36 months. We work on activity choices organized around five developmental domains. The toddler program provides learning experiences to enhance your child's social, emotional, academic, cognitive and developmental growth.

### **Safety**

Our entry into the building is secured and access is available with a key card provided by our security team. There is a second entry into the classroom with key card access provided to the parents.

### **Environment**

Toddlers' area is clean and sanitary to prevent spread of infection. We have strict guidelines to ensure immediate and constant sanitation of toys and surfaces. We use all natural products for cleaning approved by our State licensing. All children's temperatures will be taken at the door.

Daily schedules will be posted. Your child's ability profiles are regularly maintained, and parent-teacher conferences are held periodically to graph your child's progress and ensure that your expectations are being met and exceeded.

### **Toddler Preschool Curriculum: Frog Street**

Frog Street Toddler curriculum is designed to nurture curiosity through exploration. Designed around the latest scientific early brain development research, this year-round program focuses on enhancing the simple joy of childhood while equipping caregivers to nurture curiosity through exploration.

Dr Becky Bailey's Conscious Discipline includes 52 weeks of activity choices specifically created for children ages 18-36 months.

The theme-based curriculum covers language arts, numbers concepts, Arts and Crafts, and fine and Gross Motor Skills.

Fine Motor activities are encouraged with a variety of games and large manipulatives like puzzles, table toys, floor puzzles, blocks and coloring.

Sensory Skills are built with felt books. Textures and other developmental toys, and Cognitive skills like recognizing and discriminating shapes, sizes, colors, textures, and sounds are also developed.

Language Development starts with reading stories, looking at pictures and objects. Storytelling, puppets flannel boards and finger play add to the language experience and build on vocal and language skills. Beginning sounds, sign language and basic number concepts are introduced.

Music plays a big role in encouraging musical movements and rhythm, language development, group plays, singing and dancing. Along with daily music and movement, our teachers will have a chapel once a week that incorporates singing, dancing, worship and a Bible lesson taught to the children.

Hands on Arts and Crafts develop cognitive skills and refine eye-hand coordination.

The outdoor playground is equipped with a variety of outdoor slides, tricycles, climbing structure, spinners and spring toys. Indoor play is a large climbing structure full of twist and turns with slides.
